Careers Office

Dear Sir/Madam,

I am writing to seek your help in our efforts to recruit three research assistants in the areas of molecular biology, protein chemistry and immunology. My company, AB Biosciences Inc., is dedicated to the discovery and development of new antibody based drug candidates. We have recently completed a proof of principle validation of our platform technology and are looking to expand our operation. Attached please find detailed information about the positions, and the relevant qualifications for the positions. We would really appreciate if you could help to circulate the information to your senior classes majoring in life science related fields. Your recent graduates, if you can reach them, are also welcome to apply. Please feel free to contact me if you have any questions regarding the positions and/or our company. I look forward to hearing from you.

Sincerely yours,

Hsiu-Ching Chang

Hsiu-Ching Chang, Ph.D.

Job title: Biotech R&D Research Assistant
Company: AB Biosciences, Inc.
Location: Allston, Massachusetts
Annual Salary: \$35,000 - \$42,000
Position type: Full time
Lab Category: Biotech/R&D/Science

Job Description

Currently seeking three Research Assistants, in the areas of molecular biology, protein chemistry and Immunology, to work in Allston, MA. Candidates must have a Bachelor's Degree in Biology, Chemistry, or other life science related fields.

Job Responsibilities Include:

- Performing biological experiments using standard techniques
- Collecting and organizing data
- Recording and reporting data and any unusual test occurrences to the supervisor
- Performing routine maintenance of instruments, reagents, and laboratory supplies
- Conforming to lab quality assurance and quality control practices
- Other duties as assigned

Minimum requirement:

Bachelor's degree plus lab/classroom experience will qualify.

Relevant Skills and experience:

- Previous laboratory research experience in molecular and/or cell biology preferred
- Candidate must be self-motivated, responsible and a team player
- Strong organizational skills and attention to details necessary
- Strong computer skills highly desirable

Joining our R&D team and experiencing one of the fastest growing biotech-industry for drug development and learning the state of the art model biological sciences in practice. This is an excellent opportunity to be trained in various lab skills for biomedical techniques and to learn the entrepreneurship in biotech field. AB Biosciences offers a variety of benefits including health insurance, 401k, and more. AB Biosciences is an equal opportunity employer and will consider all applications without regard to race, marital status, sex, age, color, religion, national origin, veteran status, disability or any other characteristic protected by law.
